MEMORANDUM FOR: Executive Director-Comptroller

Colonel White:

I thought you might be interested in the following paragraph from Hugh Cunningham's last Weekly Report:

"Because we have had so few requirements in Arabic -- and we have no requirements for the next year from components who would be expected to send us students -- we are dropping the language from the OTR curriculum as of 31 July. Whatever Agency requirements there may be will likely be met by using FSI's facilities in Washington and Beirut. The Language School will release two instructors, one full-time and another one in WAE status.

(signed) John W. Coffey
